

Welcome to Shazeha & Mamunur's

FAMILY DESCRIPTION

We have been hosting for many years and we like hosting students from all over the world.

A LITTLE MESSAGE FROM THE CHATTERS

We are a small family who love travelling and learning about different cultures and languages. We already experienced Kate&Tao's concept when we hosted a sixteen years old japanese girl during 6 months. We treated her like she was a family member. During sunny week-ends we enjoy walking, going to a parc which is really close, going for a bike ride... We also love playing board games and going to the cinema.

THE SPOTTER'S OPINION

Shazeha and Mamunur live 20 minutes far from Birmingham city center and 10 minutes from the airport which is really convenient for the Tripster. The city where they live is quite big with over 100 000 inhabitants. The family lives in a one floor house in a residential area. The first room available for a guest is located on the ground floor with a storage space The second room on the 1st floor is bigger. They have 2 living rooms and a play room for their lovely little girl. Shazeha is a teacher. She leaves home at half past seven and comes back home between 3 or 4pm (but mostly 4pm). Mamunur is a print finisher and works from Mo-Sa. They also suggested an idea that might be of interest for some Tripsters who want to stay for a long period. There is a charity shop where it's possible to do voluntary work. That could be a great idea for Tripsters who want to become fluent in English.
