

Welcome to Irtaqa & Rashid's

FAMILY DESCRIPTION

We like to contribute in community and currently Irtaqa is volunteering in a local school to provide help and support to young children with their special needs. We have been hosting International students from all ages around the world for the last 8 years.

THE SPOTTER'S OPINION

Rashid and Irtaqa are two nice persons who will enjoy sharing their hobbies with a Tripster.

There are local amenities i.e. buses, trams, shopping center within walking distance. Usman is passionate and spend a lot of time in looking after his garden and cleaning. Irtaqa is also an artist and do painting, sketches and also a really good cook.

A LITTLE MESSAGE FROM THE CHATTERS

We are a small family of four. Usman and Irtaqa are both professionals. Rashid Works full time as Relationship Manager in a Bank and Irtaqa works as a Interior designer (part Time) for a Interior Design Company. We have two Children, Rayann age 8 and Alisha age 6. We like to contribute in community and currently Irtaqa is volunteering in a local school to provide help and support to young children with their special needs. We have been hosting International students from all ages around the world since last 8 years. We have had worth of experience to share with our students/Tripsters and can provide all necessary help and support with their learning experience. Life is all about learning new things, share experiences, be creative, helpful and make new friends. We are very tidy, clean and hygienic and expect the same form a Tripster. None of us smoke and have no preference. Tripster can be a smoker as long as they smoke outside the house. Learning can never be stopped no matter what age group you are in and we as a family strongly believe in sharing life experiences. We live in a newly built designer decorated five bedroom house which is close to Manchester City Centre.
